# LEARNER SURVEY

## What is the survey?

- The Department for Education (DfE) has published a survey that lets apprentices quickly rate their Training Provider
- There are two questions to the survey that asks you to rate different aspects of the training, with an overall rating as well.

## How do you access it?

- You will need to log into or create your 'My Apprenticeship' Account here: [Sign into My apprenticeship \(education.gov.uk\)](https://education.gov.uk/my-apprenticeship)

## When can you complete the survey?

- You can then complete the survey every 3 weeks until 3 months after your apprenticeship has completed.
- You can submit a survey more than once during the apprenticeship. Any responses expire after 12 months.

## Why should you complete the survey?

- The survey will help your Training Provider to implement actions to improve the quality of training for you and other apprentices.
- It will allow the government to monitor the effectiveness of apprenticeship training with your provider.

## Why has the DfE developed the survey?

- The government wants to empower apprentices to choose Training Providers that are of high quality.
- It helps to ensure the funding for apprenticeship is given to the right Training Providers.
- There is also an employer survey that is sent to your employer, like this one.

## Where are the results?

- The results can be found on the Find an Apprenticeship Training Provider GOV.UK website here: [Apprenticeship training courses \(education.gov.uk\)](https://education.gov.uk/apprenticeship-training-courses)
- To view the results for a specific Training Provider, enter the name of your apprenticeship and scroll down to find your Training Provider
