

Are you a teacher or trainer in the Further Education and skills sector?

Do you know about changes to your Professional Standards?

Inspire your professional learning and career development with the Professional Standards for the FE and skills sector – to reflect the latest thinking and practices and to position the sector at the forefront of strategic issues such as sustainability and wellbeing.

Launched in 2014 and developed by the Education Training Foundation (ETF) in collaboration with professionals and experts across the sector, they consist of 20 carefully crafted aspirational statements in three domains of practice to help you identify areas for your own professional development and provide a national reference point for staff development in the sector.

PROFESSIONAL VALUES AND ATTRIBUTES

Seven standards to help you develop your own judgment of what works and does not work in your teaching and training.

PROFESSIONAL KNOWLEDGE AND UNDERSTANDING

Five standards to help you develop deep and critically informed knowledge and understanding in theory and practice.

PROFESSIONAL SKILLS

Eight standards to help you develop your expertise and skills to ensure the best outcomes for your learners.
